그지 남들이 웃으면 따라 웃고

다른 사람들의 관심사에 '그렇구나' 맞춰 리액션이나 하며

... 존재감이란..... 전혀 없는... 그저 그런...

... 그런게... 나.....

절축

When they laugh,
I laugh.

Just tagging
along with
whatever everyone
is talking about...

The sense of
existence is faded

For someone
like me ...

N, let's have lunch
together.

Would you like to
have lunch with us ?

Can I join ?

We asked him first.

They are at it again ...

I am really starting
to dislike my classroom...

Sigh, what's the
point of muttering
to myself about it -

Let's just go have
lun -

... eh ... ?!

What ...

That was sudden ...

Ah... the guy I saw
this morning.

He does still look
handsome.

And he smells so
nice ... Lotion?
Or soap ?

Um ...

Huh ?

Your hand ...
please ?

Ah ...

Ahah ...

Ah, um ...

I am sorry !

Yo, you are here.

Hey, let's go have
lunch.

What, him
again ?!

Why did he have
to jump into a
moment like this
again ...

... It was probably
since that moment ...

When I started to ...

look at a guy who
is seemingly rich
with a decent
appearance and
powerful friends
(only) from behind...

Probably that moment
was the beginning.

Darn, that was
a good chance ...

Huh ?

.... Uh ?

T, this is ...

What -

is that ?!!!

TG ?

Yeah, TG
entertainment.

I've been selected
for a group they are
preparing...

I am only a backup
member though.

I see. That's why
you moved to
Seoul.

Wasn't their
audition hard?
From what I've
heard, it's almost
brutal.

Hah,
damn right.

Anyway, grats
on your future debut.

Let's keep contacts
even when you
become popular,
okay ?

Hah -

I am only a backup
member... But
thanks.

Everyone ...

Everyone around
me ...

Told me that
I was going to
be N ...

... Until you
showed up.
